The U-500 insulin algorithm depicted in Figure 1 of the article cited above (p. 78) contained two incorrect symbols in the follow-up section of the algorithm ( $\leq 130$ –200 mg/dL was shown instead of the correct  $>130$ –200 mg/dL and  $\leq 200$  mg/dL was shown instead of the correct  $>200$  mg/dL). The online version of this article has been updated to reflect these changes.
